This requires looking into new research questions, using new methodologies and obtaining new types of results. How could academic scholars become an asset for PSM organizations and help them meet their research and knowledge needs? What are the key future topics PSM organizations are looking into? And why has collaboration between PSM organizations and scholars not yet reached its highest potential? In this panel we will address these questions and point out the future needs and trends regarding research on PSM.</i></p> <p>Panelists: tba</p> <p>Session Chair: Roberto Suárez Candel</p>
